an Glynn denied that he had o call a meeting of the state of the Governor. Wis supporters insisted that i refused to issue a call for a new war savings recruits, a number far in excess even of the optimistic expectations of the War Savings Committee, were the estimated results attained yesterday.

The success of the day's work was visible in every part of the city through the appearance by tens of thousands of war savings service buttons on the coats and dresses of the men, women and children as evidence that they had signed pledges.

Money, railroad fares, the war chest—these must be the contribution of the city toward the welfare, the happiness, the reanimation of children who shivered and went hungry in tenement homes last winter, and who must swelter and still go hungry in tenement homes this summer. Unless The City goes over the top with The County Is Awake

"But since I got out there has not been a meeting of the executive committee," added Mr. Tanner.

Senator Robinson said he noticed that Chairman Glynn had stated in the newspapers that he had received no request to call a meeting of the State Committee for the purpose of issuing a call for a state convention.

"No such request is necessary under the rules of the party," said Senator Robinson, "and Mr. Glynn boldly has ignored such rules in stating that he would not issue such a call.

When Attorney General Lewis was
asked what he thought of the move of
Senators Wadsworth and Calder he

gaid:
"I am heartily in favor of the proposition. Senators Wadsworth and Caller have performed a distinct service to the Republican party in the state and nation in issuing this call.

"An assemblage of the Republicans of the state, meeting under the call of the two United States Senators, cannot fail to command attention and respect, and I have no doubt that such an assemblage will give correct expression to the views of the great body of the Republicans of the state."

## Whitman Leaders Preparing to Call State Convention

Indications Are It Will Not Be Merely an "Assembly"

man George A. Glynn nor any one

While these towns have been reporting actual figures, a score of others in the same general region are quietly pushing the work in their own localities. Manchester is aiming at fifty children; Granby, Bristol, Plymouth, Simsbury, Unionville, Moosup, Plainfield, Plantsville, Tariffville, Weatogue, Putnam, Willimantic, Yantic, Farmington and others haven't estimated their possibilities, but they will probably surprise their neighbors when the "over the top" movement is over.

Now, city folks, are you, too, going to do your bit? That some are is shown in the list of contributions acknowledged at the foot of this column. To-day the war chest of the Fresh Air campaign passes its first thousand dollar mark. It will have to go one hundard the stream of the rules, the convention called according to the rules of the state committee, and not merely an "assembly," as asked for hy Senators Wadsworth and Calder in their call on Thursday night. Under the rules, the convention is to be held "at least five weeks prior to the efficial primary day, for the purpose of formulating party platforms and policies and the transaction of business relating to party affairs."

"Senators Calder and Wadsworth were misinformed if they were told that I had been asked and had declined to call, a meeting of the Republicans."

to call a meeting of the Republicans Busy Enrolling Women

"The work by various county organizations throughout the state in the party enrolment, extending in the country districts until July 15, has kept the machinery of the state committee busy. There are about 1,800,000 women votages and it. ers, and it has been a heavy task to superintend the enrolment. Upstate the work is heavier than it is here, as the ratio of Republican women to Democratic women runs from 2 to 1 to 10

ocratic women runs from 2 to 1 to 10 to 1.

"The organization never was in better shape for a campaign than it is at present. While some voters are apparently much concerned about candidates and conventions, the working force has been attending to the mecanical work. If the Governor's opponents desire to supersede the rules of the state committee, it would seem that they first ought to exhaust the means laid down in the rules."

The call issued by Senators Wadsworth and Calder was disconcerting to the Whitman men, but after the first shock they professed entire willingness to have a regular convention, with addresses from the leaders and with a

Aided Lewis's Fight

There was no doubting the feeling created in the minds of the Lewis forces by the action of Senators Wadsworth and Calder. They said it had done more toward aiding Attorney General Lewis's fight on Governor Whitman and managers.

## New York Thrift Drive Starts With Enthusiastic City Hall Rally

The greatest popular movement the city has ever known got underway when the combined forces of the War Savings and Third Liberty Loan committees left the City Hall at noon and went over the top for Uncle Sam. Flying squadrons of workers in all parts of town received the word immediately, and the drive to pledge 2.000,000 stamp collectors in greater New York was officially launched.

The allied committees met earlier in the war savings headquarters in the Equitable Building and marched to the City Hall with an escort of police and the U. S. S. Recruit band at the head of the procession. Enthusiastic crowds poured out of the neighboring office buildings and followed up Broadway to the scene of the opening ceremonies.

The Board of Estimate yesterday while apparently realizing the urgency of increasing the pay of policemen he didn't know where the money would consider that question.

The question came before the board yesterday's meeting on the request Mayor Hylan addressed the workers from the City Hall steps. Martin Voegel, Assistant Secretary of the Treasury, also had a final word of encouragement for the committees. The Mayor and other members of the board declared that they were in favor of increasing the salaries of city employes receiving less than \$1,800 a year, but that the city officials would have to take time to find out where the pioney could be obtained. It was estimated that a 10 per cent increase in the two departments would amount to about \$900,000 a year. The usual method of raising the money would be to issue special revenue honds. It was 1000,000 of such bonds in any one year. Half of that amount has already been issued for other purposes, and another \$500,000 is said to be needed for the Dock Department and Bellevue and allied hospitals.

#### Salary Accruals Suggested

It was suggested that salary accruals in the two departments, estimated at hundreds of thousands of dollars during the next year, be used to meet advanced pay schedules. Fire Commissioner Drennan said that the department would probably save \$700,000 during the year from the accrual of salaries of men in the military
